Class Song—By Class.

Freshman Class Song:

O, we are the far-famed Freshies

Of the far-famed I. H. S.

And there's not a class can beat us

When it comes to joyousness

For we know few cares or troubles,

We're a bright and cheerful throng,

And when the Sophies laugh at us,

We sing our Freshman song.

Chorus:

Keep the Sophies gawking,

Keep the Juniors talking,

Keep the Seniors in the dark

They're stale and old.

But we are young and fresh,

They call us green and rash,

But what do we care for?

We're for the Black and Gold.

When there's any joke a going

It is usually Freshmen's work;

But from algebra and history

We never, never shrink;

For in fun and in our studies

We are always just the same

We tackle them with all our might

For that's part of our game.

ZELIA RUSSELL.

Mr. A. R. Emory, in charge of the local office of the U. S. Employment Service at Cape Girardeau, Mo., is informed by the Chicago office of the Professional Section of the U. S. Employment Service, that a most serious shortage of teachers exists in practically all parts of the United States, and that he has been asked to ascertain just what, if any, teachers are available within the radius of his office. The Chicago office reports, that it has vacancies it is unable to fill in rural schools, city grade and high schools, principalships, superintendencies, and college and university professorships. All qualified teachers not now actually engaged in teaching are requested to call at the office of Mr. Emory for a special registration blank and in this manner enroll for one of the positions listed with the Chicago office. This applies particularly to teachers who have temporarily left the teaching profession. Mr. Emory says he is informed the need is very great, and that the Chicago office is making a desperate attempt to fill these positions by January 1st, or as soon thereafter as possible.
